COLLECTION

When looking to the future, the best inspiration can often be found by gazing toward the past. Inspired by the simple grandeur of centuries gone by, the Newel Collection reinvents historical style for the modern era. This collection draws heavily on the sturdy elegance of 19th century Louis Philippe style, borrowing its simple ornamentation and emphasis on materials to evoke a sense of classic European comfort. Traditional cherry wood allows the Newel collection's subtle hardware, paneling and molding details to shine, providing the perfect complement to a variety of transitional and traditional styles. The result is a pleasingly laidback antique style that views the past through a modern lens, allowing traditional ornamentation to transform into something new. Elegance, redefined and simplified. That's the essence of the Newel Collection.
